

Compression Shapewear

by Wear Ease®

Compression Shapewear by Wear Ease® designed to meet the needs of women recovering from breast or chest surgery and side effects such as edema and lymphedema. Comfortable and flattering, our body-shaping collection provides just the right amount of support for long term wear and compliance. Great for sleeping, travel & sportswear.

Styles: 780, 915, 910, 912, 970

- "Step into" garment design for ease of donning
- High cut underarms and back targets swelling
- Built-in pockets for prostheses if needed
- Snug enough to hold chip pads & swell spots in place
- Hidden seams and sturdy construction
- Comfortable body shaping garments

Fabric content: 80% nylon/ 20% spandex

- Lightweight, supportive & moisture resistant
- High level of comfort
- Firm fabric for maximum control & compression

Sydney Bra

Style 780

A compression bra designed for active wear.

- Flattering neckline and silhouette
- Removable bust cups
- Bra style eliminates having to fit the abdomen
